Do not stop UBER!

If uber is stopped in South Carolina many more people will be drunk driving on our roads.
In addition, I am an UBER driver and help support my family.

Thank you
Chris Poore

Subject: SC needs Uber!

I am writing as a South Carolina resident and avid user of Uber. Please don't take this invaluable service from SC residents!! Uber is committed to the highest of standards when it comes to the safety of its riders, which go above and beyond requirements or anything that taxi companies adhere to. This is in addition to the fact that ride share companies like Uber are simply better in every way. Friendlier drivers, lower costs, a more comfortable atmosphere, swifter pick-up times, the assurance that we as riders are not being taken advantage of, and a more enjoyable ride experience all around. I understand that there are politics involved, to do with wealthy people who own the cab companies, but ride sharing is something else entirely and ought to be a right for anybody who benefits from it. Please don't take Uber from South Carolina, we need it!

Subject: YOU CANT SHUT DOWN UBER

For the first time in Greenville there is a viable option when it comes to transportation. To say that can service in Greenville is slow and unreliable in Greenville is an understatement. Shutting down a safe, clean, reliable alternative to driving in the name of a cab service that is basically nonexistent and when they do show up, shady and suspect at best is absolutely ridiculous. Do NOT shut down uber because the cab companies are not able to provide equal or greater service. That sounds like their problem, no ubers.

Subject: South Carolina Uber

To whom it may concern:

I am emailing to express the need for ride sharing in SC. I am a resident of NC and I travel to SC twice per week on business and use Uber all the time because it is convenient and easier than a taxi service. Your antiquated laws are providing a disservice to your residents, as well as people who travel there on business. Get with the times and let people have a choice in how they transport themselves from place to place (like the other states)!

Respectfully

Vanessa Jeffress

Subject: Uber

Uber rides in charleston have been much safer and higher quality rides than the deplorable can companies that exist here in addition, they were also more affordable. This decision is poor and should be rebooked at
